## General information

### Dear Hunting Guest,

The commencement of the hunting is subject to the signature by the guest of a contract issued by the Agency after previous consultations and to the completion of a Shooting List on behalf of the guest hunter. The guest hunter must hold a valid hunting ticket or a hunting license and a gun license.

### Terms of payment and settlement

Booking of any hunting is done by payment of 30% of the expected full shooting price calculated according to the current price list of VADEX Mezőföldi Co., a sum which is invoiced as a deposit. The remainder of the shooting price of the game brought down shall be due when a FI settlement invoice is issued, which is based on the trophy judgment ticket and the mutually signed shooting list. The payment obligation of the guest shall apply to all game with the value as stated in the price list, to all shootings and all services used as stated by the representative of VADEX Mezőföldi Co. on the shooting list, irrespective of whether they were included in the contract or not. VADEX Mezőföldi Co. shall only hand over the trophies after full payment of the FI invoice. The trophies obtained may only exit the country and the European Union upon presentation of the paid invoice and the surrendering of the custom documents. **The costs of transport of the trophies and any related insurance price shall be borne by the hunter.**

**The hunting lodge service booked shall be considered as provided and due for payment in full based on the booking even if the service was only partially used. No alcoholic beverages or other drinks and food, other than those purchased by VADEX as proven with the relevant invoices, may be consumed in the restaurant of the hunting lodge due to current regulations of the National Public Help and Medical Officer Service (ÁNTSZ).**

Fails shall not be paid if the hunter shoots a game of the same species and gender as the missed one during their stay in the territory.

**ATTENTION!** It shall be valid for all big game with trophies that the size of the trophy estimated by the official hunting guide may vary by +/-15% from the size of the trophy stipulated in the contract. The hunter shall pay the respective price of the trophy according to valid price list within this variation.

## Measurement of red, fallow, roe and sika deer antlers

24 hours after the boiling, cleaning and one-time bleaching of the antler it is done on the hunting ground with the big skull (or the small skull in case of roe buck). The pearly tooth shall belong to the antler without any extra charge and it shall be handed by the hunting guide to the shooter in a clean form.

## Measurement of ram horn

The official length is the average of the length of the two horns.

## Determination of tusk length

The length is based on the average of the length of the two lower tusks (big tusks). For tuskers missing or hurting one of the lower tusks, or whose lower tusk is broken at the root and as a result the average length is less than 12 cm but the upper tusks (small tusks) are intact and existing the basic size (12 cm) shall be paid. During the hunting the price calculated according to the actual tusk length of the game brought down shall be paid regardless of the prior estimate of the tusk length and the 15% tolerance shall not apply. In case of irregular and abnormal trophies an extra charge of 15% shall apply.

**Prices include the value-added tax.**
